

### Check-in Information:

- A. Passenger(s) must check-in one hour prior to departure. Boarding will begin 20 minutes before scheduled departure. Failure to check-in on time will result in the cancellation of reserved seat(s) and incur a \$40.00 change fee. No-show reserved seats will then be released.
- B. There may be occasions when aircraft flights may depart before or after scheduled times. Passengers who check in early the day of flight must be on-site at flight closing time (40 minutes prior to departure) to ensure they maintain their seat reservation. In the event a passenger is not present and is removed from the flight, a change fee will be assessed to reschedule the ticket, and the seat and space may be filled with stand-by passengers or cargo.
- C. To maintain an on-time operation, and as a courtesy to other passengers, our aircraft will not be held for late-arriving passengers.
- D. FAA requires we account for actual passenger weight on each of our flights. Please provide Customer Service Agents with your weight at the time of check-in. Persons of large stature may require special accommodations.
- E. Customers in need of special arrangements or assistance can contact Everts Air Alaska Customer Service at (907) 450-2351 or via Contact through our web site at [www.evertsaair.com](http://www.evertsaair.com).
- F. **Village Check-in** - For flights departing from one of our village destinations, passengers are required to be at the village runway prior to flight arrival. Published arrival times may change and, in order to maintain an on-time operation, aircraft may depart prior to scheduled departure time. Passengers are responsible for staying in touch with the village agent or calling a customer service agent for the most up-to-date arrival information. Customers may also check flight status by contacting our Passenger Customer Service Counter at (907) 450-2352.

**Note: Once the pilot has called for boarding of confirmed passengers and cleared any standby passengers as space is available, no other passengers will be allowed boarding.**

Please also advise if you will need assistance boarding and deplaning. Passengers who are unable to move at all without assistance or a wheelchair, must, for their own safety, be accompanied by an escort before, during, and after the flight. - F. Carry-on Baggage is not permitted aboard any Everts Air Alaska's aircraft. Hand carry items such as a camera or book, or small items attached to person, such as fanny packs or small purses, may be kept in possession of the passenger during flight, but subject to final decision by the pilot for safety.

### Animal Policy:

**Note: Please notify the Reservations agent at the time of booking if you are traveling with animals.**

A. Service animals:

1. The U.S. Department of Transportation has issued a final ruling amending the Air Carrier Access Act regulation on the transport of service animals by air. This allows air carriers the ability to address concerns raised by individuals with disabilities, airlines, airports, and other members of the public regarding service animals on aircraft. The final published rule can be found in 14 CFR Part 382.
2. Definition/Policy:
  - a. A service animal is a dog that is individually trained to do the work or perform tasks for the benefit of a person with a disability.
  - b. Psychiatric service animals are to be treated the same as other service animals that are individually trained to do work or perform tasks for the benefit of a qualified individual with a disability.
  - c. Airlines are not permitted to require a letter from a licensed mental health professional for the passenger's need for the animal.
  - d. The Department does not consider emotional support animals and other pets to be a service animal providing emotional support, comfort, or companionship does not constitute work or tasks.
  - e. Emotional Support animals and other animals or pets must be secured while in the airport and stowed in an airline approved kennel while on board an aircraft.
  - f. The number of service animals allowed per person is 2.
  - g. Service animals shall fit on the handler's lap or within the handler's foot space on the aircraft.
  - h. Service animals shall be harnessed, leashed, or always tethered in the airport and on the aircraft.
  - i. Service animals that exhibit aggressive behavior and that pose a direct threat to the health or safety of others can be refused to be transported.
  - j. Discrimination solely based on breed is prohibited by airlines.
  - k. Airlines are permitted to deny transport to an animal, regardless of breed, if the animal poses a direct threat to the health or safety of others.

In the case of weather delays or cancellations, we require any animals to be picked up and cared for until which time we are able to accommodate the transportation of the animal.

- F. Please be advised XL kennels may not fit on some of our aircraft, and many large kennels may present a limitation based on flight loads. Regardless of the size of the kennel, the passenger is responsible for informing the Customer Service Agent of any animals/kennels, and their sizes, when making the reservation.
- G. **Animal Crate/Shipping Guidelines** - The shipper is required to provide for the protection and well-being of animals in transit. This includes the size of the crate being designed for the size of animal, the health of the animal, and the length of wait before flight. Your animal should be able to move around and lay comfortably in the shipping container without being curled up. Your animal must not be in distress and may not be left in the shipping container for more than a few hours before flight. Water should be available for your pet and walks for long waits are always a good idea. Small puppies may be allowed to travel in one kennel, subject to Everts Air's approval.
